DISPATCH Yes

WHAT HAPPENED (DETAILS): The driver of vehicle #1 was eastbound on I-84 near mile marker 8 just east of Snowville, Utah. It appears that the driver may have become distracted, she had just negotiated a curve in the roadway when she drifted into the median and then overcorrected back into the eastbound lanes and then went back into the median where her 2006 Blue Kia Spectra rolled at least one complete time landing on its side in the westbound inside emergency lane. She was not wearing her seatbelt and was thrown from the vehicle. She was transported to Bear River Valley Hospital by Snowville Ambulance and was pronounced dead at the hospital. We were informed that she had a dog with her at the time that the ambulance arrived, however, the dog an Alaskan Husky type dog ran away from the scene and was unable to be located. One lane was closed westbound during the investigation.
